EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Lund on October 29, 2007.

The application has been amended as follows:

Claims 41-47: The computer readable storage media having computer readable code...

Claims 48-51: The ~~method~~ computer readable storage media of claim 47 ...

The following is an examiner's statement of reasons for allowance: claims 1-6, 13-30 and 36-51 are allowed because in combination with receiving access in an unsecured mode and generating configuration parameters for initializing secure communication as amended in the claims, the prior art of record fails to teach printing a security page showing the configuration parameters for initializing secure communication and manually inputting the configuration parameter into the management application of the client.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
